Power-Return Rule – Magnetic Tip

Measure up to the task with magnetic tip power-return tapes

Created for fast and easy one-person measurements, the new power-return tape family is an absolute must for any professional working with ferrous metal. These tapes have many features including a Rare Earth magnetic tip, an impact-absorbing rubber jacket that protects the case and end hook, and long-lasting nylon coating that reduces blade wear.

Features

Comfortable, non-slip rubber jacket for easy gripping of dual-injected molded rubber case.

Thick rubber jacket protects case against fall impacts.

True zero feature for accurate inside and outside measuring.

Convenient two-step lock button
• 1st step slows retraction of the blade
• 2nd step holds the blade securely

High-visibility orange case for easy locating in work areas and tool bags.

Multi-rieveted end hook with bottom blade protector reinforces the blade tip and provides maximum pull-out strength.

Built-in shock absorber to protect blade tip.

Nylon-coated, hardened steel blade resists abrasion and wear for long life.

1.25" wide blade on 917-25RE (1" blade on all others). Oversized, bold black numbers** (first 11 inches) for easy reading.

Durable steel belt clip for convenience.

Rare Earth magnetic tip sticks to iron and steel surfaces for simple one-person measurements.*

*Note: Magnetic strength will vary with different types of metal surfaces.
**Not available on 916-7.5ME-RE.

Ordering Information

	Cat. No.	Description	Blade Length/Width
NEW!	916-16RE	Power-Return Rule – Magnetic Tip	16' x 1" (5 m x 25 mm)
	916-25RE	Power-Return Rule – Magnetic Tip	25' x 1" (7.5 m x 25 mm)
NEW!	917-25RE	Power-Return Rule – Magnetic Tip	25' x 1.25" (7.5 m x 31 mm)
NEW!	916-7.5ME-RE	Metric/English Power-Return Rule – Magnetic Tip	7.5 m x 25 mm (25' x 1")
NEW!	916-30RE	Power-Return Rule – Magnetic Tip	30' x 1" (8 m x 25 mm)

⚠ WARNINGS:

- Always wear approved eye protection.
- Protect hands when cleaning magnetic tip. Use gloves or cloth.
- Avoid magnetic contact with sensitive electronic or computer equipment.
- To avoid personal injury and damage to this tool, do not allow the tape blade to retract into case at full speed.
- NOT insulated. Do NOT use on live circuits.
- Do NOT open case. Spring motor is under tension, and opening case may cause injury.
