

## Screwdriver Blades, Insulated Double-Ended TORX®, 2-Pack

Klein Tools' Insulated Interchangeable blades contain a bright orange coating of insulation that protects from electrical shock, as well as being flame and impact resistant. When the blades are used with the Klein Tools' insulated handle, the complete tool exceeds the ASTM F1505-2021 standards for insulated tools, and are clearly marked with the official 1000V rating symbol. Replacement blades for Klein Tools' Insulated Interchangeable Screwdrivers (Cat. Nos. 32854INSR and 32581INS).
