

Barrel Drift - 3/4" (19 mm)

Klein Tools Barrel Drifts are designed for aligning holes in construction. They can also be used for expanding holes in mild steel. The taper is forged, not turned, for greater tensile strength.

Specifications

Overall Length:	6.281" (16 cm)	Point Diameter:	0.359" (9.12 mm)
Diameter:	0.75" (1.9 cm)	Weight:	0.6 oz (277 g)
