## New Type-2 Safety Helmets from Klein Tools® Offer Protection for Wide Variety of At-Height and Confined Space Applications

**May 17, 2023 (Lincolnshire, Ill.)** – Klein Tools ([www.kleintools.com](http://www.kleintools.com)), for professionals since 1857, introduces new Type 2 Safety Helmets, built with an unwavering focus on safety, comfort and fit, and featuring a low profile and lightweight design that allows easy access to confined spaces and makes them ideal for at-height applications.

### Type 2 Safety Helmets (Cat. Nos. 60525, 60526, 60564, 60565)

- Compact, lightweight design for at-height and confined space applications
- Tested to the latest ANSI Z89.1-2014 (R2019) Type-2, EN397\*, and EN12492\* standards for top, front/back and side impact, penetration and deformation (\*Selected clauses; see instructions for details)
  - **CLASS E, Non-vented models are tested up to 20kV of electrical protection**
  - **CLASS C, Vented models have large adjustable vents that can be opened & closed**
- Low profile bill for unobstructed visibility, especially when looking up
- Patented accessory mounts on front and back ensure Klein accessories attach securely and precisely with no straps needed
- Universal side slots allow attachment like face shields & hearing protection (earmuffs)
- 6-point suspension offers enhanced stability and secure fit, along with an open-frame design for optimal air circulation
- Sweatband & Top Pad made of sweat-wicking, breathable padding that is machine washable
- Large ratchet knob for easy one-handed adjustment – even with gloves on
- Detachable 4-point leather-bound chin strap for long term comfort and secure fit
- Optional Clear and Tinted Visors directly attach to helmet for convenient low profile eye protection

“Klein Tools’ Type-2 Safety Helmets are ideal the combination of safety, comfort, fit and innovation,” says Shantanu Deshpande, group product manager at Klein Tools. “Tested to latest ANSI Type-2 standards, the additional protection from front, back and side impact allows them to be extremely versatile for a wide variety of applications at-height or in confined spaces. With long-term comfort and heat management front of mind, a machine washable padded-sweat absorbing interior along with large adjustable vents allows for seamless use in a wide range of environments as well. Klein’s patented click on/off accessory mount system allows for a host of accessories from Klein’s ecosystem, like personal fans and headlamps to easily attach onto the shell, making it a convenient tool.”
