Klein Tools® Launches New Modules for Bucket Work Center, Allowing Further Customization of “The Lineman’s Office”

Aug. 15, 2023 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces new modules for the Bucket Work Center System, allowing you to easily customize “the lineman’s office.”

Wall Assembly, Rail System

- UV resistant, dielectric plastic (up to 35kV) to withstand work conditions from -25 to 125-Degree Fahrenheit (-32 to 52-Degree Celsius)
- Easily attaches to utility buckets with quick release and adjustable clamps
- Multiple rails allow horizontal and vertical customization of module positioning
- 40 lb. load rating
- Screw holes allow you to easily mount to truck cabins, walls and workstations (Cat. No. BC99WA)

<u>Storage Wall Assembly</u> <u>(Cat. No. BC99WA)</u>	<u>Wall Assembly, S-Hook</u> <u>(Cat. No. BC100S)</u>

“Klein’s Bucket Work Center Rail System is the first of its kind, the only aerial bucket solution that lets you customize how you store your tools in ‘The Lineman’s Office,’” says Pierre Perez, associate director of product management at Klein Tools. “When designing these new modules, our goal was to build a system that gave linemen durable tool storage and organization solutions for their bucket that were practical and strong enough to hold all the tools that they use daily. Professionals can pair our S-Hook modules and our Rail System modules in their utility bucket in a way that fits their specific needs.”
