## Klein® Tools Releases High Performance Alignment and Layout Tools

**Oct. 24, 2017 (Lincolnshire, Ill.)** – Klein Tools ([www.kleintools.com](http://www.kleintools.com)), for professionals since 1857, introduces two new Self-Leveling Cross-Line Laser Levels, the 93LCL and 93LCLS, enabling a multitude of alignment and layout applications. These new products provide reliable pendulum self-leveling systems, clear, easy-to-read laser level lines, and model 93LCLS offers a 90-degree vertical plumb spot.

**Cat. No. 93LCL**

**Cat. No. 93LCLS**

### **Self-Leveling Cross-Line Laser Levels (Cat. Nos. 93LCL, 93LCLS)**

- Self-leveling, easy-to-read laser lines
- Projects horizontal and vertical lines independently or together for various alignments
- Plumb spot lasers to pinpoint overhead locations (model 93LCLS only)
- Integrated magnetic 360° mounting bracket with 1/4 inch and 5/8 inch tripod mounting threads
- Additional mounting clamp attachment for use on ceiling grid applications
- IP54-rated water and dust resistant
- Includes molded hard carrying case

“From leveling flooring to installing drop ceilings, aligning shelving or cabinets and many more applications, the new Self-Leveling Cross-Line Laser Levels will help tradespeople continue to be accurate during any job,” says Sean O’Flaherty, director of product management at Klein Tools. “Both products feature bright, easy-to-read horizontal and vertical laser lines that professionals can rely on, and the plumb spot lasers on model 93LCLS increase versatility by pinpointing overhead locations.”
