Klein® Tools Introduces Easy to Use, Easy to Carry Pocket Knives

May 18, 2018 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Bearing-Assisted and Spring-Assisted Open Pocket Knives, which both conveniently deploy with one hand. Designed for everyday use, Klein's new [Pocket Knives](#) are not only easy to open but also easy to carry with low-sitting pocket clips.

Cat. No. 44213

Cat. No. 44223

Bearing-Assisted Open Pocket Knife (Cat. No. 44213)

- Bearing-assisted opening mechanism deploys blade smoothly
- Ambidextrous flip lever enables easy, one-finger opening
- Stainless Steel Tanto blade is perfect for piercing and slicing
- Low-carry pocket clip allows the knife to sit low and out of the way when not in use
- Durable, lightweight skeleton frame for convenient, everyday carrying
- Frame lock keeps blade secure in open position
- Lanyard hole for secure tethering

Spring-Assisted Open Pocket Knife (Cat. No. 44223)

- Spring-loaded opening mechanism makes blade deployment easier
- 440A stainless steel, drop point blade knife provides both a fine and serrated edge for increased versatility and a wide-range of applications
- Liner lock secures blade open for extra safety on the job
- Low-carry pocket clip allows the knife to sit low and out of the way
- Safety lock keeps knife closed when packed away
- Dual thumb studs provide easy left- or right-handed opening
- Lanyard hole for tethering

"Tradespeople are driven to work more efficiently while balancing multiple tasks on the job, which means they often only have one hand free to open a pocket knife," says Laura Ranieri, senior product manager at Klein Tools. "Klein's Bearing-Assisted and Spring-Assisted Open Pocket Knives make it easier to cut, pierce and slice with convenient, one-handed open mechanisms. Professionals who keep either of these two new tools handy will find greater versatility all within arm's reach."
