Klein Tools® Adds Two Pocket-Sized Innovations to the Voice-Data-Video Product Line

July 11, 2019 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the new LAN Explorer™ Data Cable Tester (Cat. No. VDV526-100) and Compact Pass-Thru™ Modular Crimper (Cat. No. VDV226-005). The VDV526-100 tests voice and data cables for miswires, open faults, short faults and shield status. The VDV226-005 works with Pass-Thru™ connectors to reduce prep time with the capability to crimp Klein Tools’ RJ45 Pass-Thru™ connectors and trim conductor wires in one step. Both products augment Klein Tools’ existing Voice-Data-Video product line and feature pocket-sized, compact designs for easy, all-day carrying.

LAN Explorer™ Data Cable Tester with Remote (Cat. No. VDV526-100)

- Single button testing of RJ11, RJ12 and RJ45 terminated voice and data cables
- Tests CAT3, CAT5e and CAT6/6A cables
- Fast LED responses indicate cable status (Pass, Miswire, Open-Fault, Short-Fault and Shield)
- Test remote stores securely in tester body
- Compact tester easily fits in pocket for greater accessibility
- Auto power-off conserves battery life
- Low battery indicator; includes 1 x 9V battery
- Replacement remote sold separately (Cat. No VDV999-150)

Compact Pass-Thru™ Modular Crimper (Cat. No. VDV226-005)

- Crimps Klein Tools’ RJ45 Pass-Thru™ connectors and trims conductor wires in one step
- Fast, reliable RJ45 Pass-Thru™ Modular Crimper reduces prep time while minimizing rework and wasted materials for data applications
- Trims connector wires flush to connectors, eliminating unintended contact when mated with the jack
- On-tool wiring guide helps minimize wiring errors
- Extends Klein Tools’ existing Pass-Thru™ product offering; for use with Klein Tools Pass-Thru™ Connectors only
- Not for use with standard (non Pass-Thru™) connectors
- Replacement blades sold separately (Cat. No. VDV999-078)

“This addition to Klein’s Voice-Data-Video product line offers two innovative solutions to connecting and testing successful installations in phone and data applications,” says Karen Alpan, product manager at Klein Tools. “The LAN Explorer™ Data Cable Tester provides instant, easy-to-understand results while the Compact Pass-Thru™ Modular Crimper quickly crimps and trims data connectors. Their simple, compact designs help lighten tool bags to make traveling to and from the jobsite easier.”
