Klein Tools® Equips Professionals with Cooling Products to Manage Heat Stress

August 8, 2019 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces a new line of cooling products designed to help reduce and manage heat stress. Klein's new Cooling Towels and Cooling Bandana feature advanced PVA cooling technology to retain moisture and stay cooler than the surrounding air.

The [Klein Tools Cooling Products](#) pictured feature:

- Advanced PVA cooling technology keeps material cooler than ambient air temperature
- Activates quickly in under a minute
- Stays cool for hours
- Multi-use product can be reactivated several times
- To activate or re-use, wet the product and gently wring out the excess water
- Machine or hand wash with mild detergent; air dry only
- Assorted cooling products sold separately:
 - Cooling Towel, Blue ([Cat. No. 60090](#))
 - Cooling Towel, Gray ([Cat. No. 60093](#))
 - Cooling Bandana, Black ([Cat. No. 60123](#))

"Managing heat stress has become a focus on today's demanding jobsites," says Shantanu Deshpande, senior product manager at Klein Tools. "Klein Tools' new cooling products use quick-activating PVA technology, offering fast, effective and convenient cooling solutions for use on the jobsite. Long periods between activation allows users to stay focused on their job while staying cool at the same time. To activate, simply wet the towel or bandana and wring out the excess water ... and you are ready to go."
