Klein Tools® Combines Durability, Strength and Functionality with Forged Wire Crimper

September 24, 2019 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Forged Wire Crimper with Stripper/Cutter, combining the most commonly used wire stripping sizes with a dedicated crimper and two cutters into one convenient tool. The 2005N is manufactured from Klein Tools' U.S.-made proprietary steel to provide tradespeople with maximum durability.

Forged Crimper with Stripper/Cutter (Cat. No. 2005N)

- Multipurpose tool for added functionality on the job:
 - Includes a dedicated crimper with a wire stripper and two cutters
 - Strips 10-18 AWG stranded wire
 - Crimps 10-22 AWG insulated and non-insulated terminals and connectors
- Specially hardened wire cutter in the nose
- Shear cutter below the rivet cuts copper wire
- Manufactured from forged steel for increased durability
- Textured grips for enhanced dexterity and integrated hang holes

“Durability is a Klein Tools family tradition lasting over 160 years,” says Tyler Winters, senior product manager at Klein Tools. “Our heritage, best represented by high-quality, innovative products, runs true with the new Forged Crimper with Stripper/Cutter, which is manufactured from Klein’s proprietary steel blend right here in the United States. Its added durability and functionality are sure to make it a quick favorite among all professional electricians.”
