Klein Tools® Launches Knee Pads to Offer Comfort and Protection on the Jobsite

May 19, 2020 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Lightweight Gel Knee Pads to its growing line of [safety products](#). These new knee pads are the perfect solution for trade professionals looking for comfort and protection on the jobsite while not being weighed down.

Lightweight Gel Knee Pads (Cat. No. 60184)

- Lightweight knee pads have slip resistant rubber caps to grip kneeling surface for enhanced stability and balance
- Pressure dispersed with gel and EVA foam that cushions the knee
- Fatigue reduced by gel design that also provides lightweight comfort and protection
- Top strap is elastic, bottom strap is webbed to provide needed flexibility
- Cinch-tight straps provide comfortable, snug fit
- Clips hold tight and keep straps secure

“Maneuvering around jobsites can often involve crawling and climbing that can be rough on the knees,” said Craig Fransen, senior product manager at Klein Tools. “Our goal in creating these knee pads was to give trade professionals a lightweight and easily adjustable protection option when working. We implemented gel and EVA foam to ensure that the knee pads would be disperse pressure on the knees and be comfortable to use through the work day.”
