Klein Tools'® New Green Cross-Line Laser Level Perfect for Brighter Jobsites

June 11, 2020 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Self-Leveling Green Cross-Line Laser Level, a high performance laser leveling and alignment tool specially designed with a bright green cross laser.

Laser Level, Self-Leveling Green Cross-Line and Red Plumb Spot (Cat. No. 93LCLG)

- Self-leveling laser level is easy-to-read with green horizontal and vertical laser lines and red plumb spot lasers
- Projects horizontal and vertical lines independently or together to address various alignment tasks
- Integrated magnetic 360-degree mounting bracket with 1/4-inch and 5/8-inch tripod mounting threads
- Magnetic bracket facilitates attachment to ferromagnetic object such as steel studs, doors, beams or electrical panels
- Additional mounting clamp attachment for use on ceiling grid applications
- Low batter indicator and easily accessible batter compartment
- Water and dust resistant (IP54)
- Hard plastic carrying case included

“Looking at the needs of the professionals that use our levels, we discovered that standard red laser levels can sometimes be difficult to see in brighter job sites,” said Tony Lam, senior product manager at Klein Tools. “We wanted this product to give trade professionals a bright green laser to improve visibility. Paired with the integrated magnetic mounting bracket and additional ceiling grid mounting clamp, this level enables a multitude of alignment and layout applications.”
