Klein Tools® New Cable Cutter Requires Less Force to Cut

Oct. 20, 2020 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the High-Leverage Cable Cutter, with cable-gripping shear-type jaws and a high-leverage design to provide exceptional cutting capability with less force required.

High-Leverage Cable Cutter (Cat. No. 63225)

- Cuts 4/0 aluminum, 2/0 soft copper, 100-pair 24 AWG communications cable
- High-leverage design for exceptional cutting capability
- Precision, one-handed shearing action
- Cable-gripping shear-type jaws
- Perfect for working in confined spaces
- Through-hardened (not case-hardened) for longer-lasting cutting surface
- Hot-riveted joint ensures smooth action and no handle wobble
- Forged, custom, US-made steel for maximum durability
- Do not use to cut steel or ACSR

“Klein Tools’ team of engineers developed the new High-Leverage Cable Cutter to give professionals a durable cutting tool that is effective on aluminum, copper and communications cable,” says Jeff Meek, director of product management at Klein Tools. “The higher-leverage and improved knife design requires less force to cut as compared to previous Klein Tools’ models, making it easier for trade professionals to get the job done.”
