Klein Tools[®] Rechargeable Bluetooth[®] Speaker Provides New Level of Convenience

June 23, 2021 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the new Bluetooth[®] Jobsite Speaker with Magnet and Hook, providing your jobsite with crisp, powerful sound along with versatile mounting options and the ability to charge or power small devices.

Bluetooth[®] Jobsite Speaker with Magnet and Hook (Cat. No. AEPJS3)

- Rugged portable Bluetooth[®] jobsite speaker offers powerful and crisp sound
- 20+ hour run time
- Charge smartphones, tablets & other small devices via USB-A and USB-C ports
- Charges in 3 hours or less using the included 39" long USB-A to USB-C cable
- Connect wirelessly via Bluetooth 4.2 up to 100 feet
- Daisy-chain feature allows pairing of two AEPJS3's together within 30-feet of each other
- Built-in microphone allows for hands-free calling via voice control
- Versatile mounting options with embedded magnets and integrated hook
- Connect non-Bluetooth devices via 3.5mm AUX input using the included 23" long auxiliary cable
- 2m (6.6ft) drop protection
- IP54 rated - dust and water resistant

“Smartphone and tablet speakers are often too small to produce strong, rich sound that can be heard around a jobsite,” says Anthony Pawula, product manager at Klein Tools. “Klein’s new Jobsite Speaker with Magnet and Hook not only allows you to conveniently mount your speaker in a variety of ways, but provides crisp and powerful sound, along with the ability to daisy-chain with another AEPJS3 speaker to duplicate audio from multiple locations. That, paired with the ability to charge and power small devices makes it the perfect speaker for your work site.”
