## Klein Tools® New Headlamp Provides Protection in Hazardous Situations

**Aug. 18, 2021 (Lincolnshire, Ill.)** – Klein Tools ([www.kleintools.com](http://www.kleintools.com)), for professionals since 1857, introduces the Intrinsically Safe LED Headlamp, designed and tested to operate in environments with unseen volatile fumes, fine dust and hazardous materials that could lead to risk of explosions.

### Intrinsically Safe LED Headlamp (Cat. No. 60156)

- Attaches directly to Klein Hard Hats & Safety Helmets with exclusive Klein accessory mounts
- Standards tested: UL913 7<sup>th</sup> edition (US/CAN), CAS.22.2 No. 157-92, Reaffirmed 2018, CLASS I, DIV 1&2, GRP ABCD; CLASS II, DIV 1&2, GRP EFG; CLASS III; TEMP CODE T4
- High-Low Modes/ Lumens/ Runtime: Low – 75 lumens, 12 hours; High – 216 lumens, 5 hours
- IP67 rated – waterproof and dust proof; drop protection tested to 6.6ft (2m)
- Bracket tilts up to 70 degrees on Hard Hats; (max 90 degrees)
- Includes 2.5mm hex key for covered battery compartment; powered by 3x AAA batteries (included)

“Safety is a priority on every jobsite, and that is something that was a main focus in designing the Intrinsically Safe LED Headlamp,” says Shantanu Deshpande, senior product manager at Klein Tools. “This headlamp was designed specifically to operate in hazardous environments where standard headlamps cannot, and where unseen volatile fumes or fine dust can be hard to detect. With bright LEDs, long run times and a waterproof and dust proof construction, this headlamp delivers the high level of performance Klein tools users are accustomed to.”
