Klein Tools® Launches New Differential Manometer for HVAC Professionals

Sep. 2, 2021 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Digital Differential Manometer, an essential tool for HVAC professionals to monitor and troubleshoot problems in HVAC systems, with a large backlight LCD screen and 11 different units of measurement.

Digital Differential Manometer (Cat. No. ET180)

- Measure air and gas pressure for ports P1, P2 and differential
- Range of +/- 60 inH₂O and full-scale accuracy of +/-1.5%
- Strong magnet on back for hands-free operation
- Units measured: inH₂O, bar, oz/in², psi, mbar, kPa, inHg, mmHg, kg/cm², ftH₂O, and cmH₂O
- Calculates minimum, maximum and average values
- Large LCD is backlit for easy viewing in low light conditions
- Auto-power off feature conserves battery life
- Hold button locks current reading on the display

“This new addition to Klein Tools HVAC product line is an essential tool for every HVAC professional,” says Sabrina Kalsi, product manager at Klein Tools.

“It measures static and differential pressure, as well as identifying pressure drops at filters and pressure loss in ducts. Tapered ports allow for a variety of tubing size attachments, and the magnet on the back allows professionals to free up their hands for easier operation.”
