Klein Tools® Launches PowerBox for Magnetically Mountable Power Distribution

Dec. 15, 2021 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the PowerBox 1, which uses strong magnets to mount to metal job boxes or metal workbenches and easily distributes power where you need it.

PowerBox 1, Magnetic Mounted Power Strip with Integrated LED Lights (Cat. No. 29601)

- Magnetically mounts to metal job boxes and workbenches
- Power and protect your devices from electrical spikes with four surge-protected 120V AC outlets
- Added versatility of two USB-A ports and one 45W PD capable USB-C port for fast charging of cell phones, laptops, and other compatible devices
- Integrated LEDs brighten up any job box to locate stored tools, batteries, and cords
- Built-in LED indicators actively monitor surge protection and grounded status of input power
- 5' power cord to easily mount the PowerBox where power is needed
- Extended strain relief on power cord increases durability for long product life
- Mount to non-magnetic locations with the built-in hanging holes

“The PowerBox is the perfect solution for helping organize and power dark and cluttered job boxes,” says Stuart Ogle, product manager at Klein Tools. “The integrated LED lights help to illuminate dark areas and powerful magnets allow it to easily mount to the inner walls or lid of a metal job box. After mounting, you can use the PowerBox’s four surge-protected 120V outlets, two USB-A and one 45W USB-C (PD capable) ports to conveniently charge personal devices like phones, laptops, speakers and more.”
