Klein Tools® Launches Portable, Versatile Lighting Solution for Any Worksite

Jan. 4, 2022 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Utility Bucket LED light, designed with three lighting options to light up the surrounding work area during overhead work. The versatile light is also portable and can be used across various jobsites.

Cordless Utility Bucket LED Light (Tool Only) (Cat. No. BAT20UBL)

- Cordless LED Light illuminates both the inside of the bucket and the outside working area
- Clamp function locks to either the straight wall or corner of a utility bucket for optimal positioning
- Rotates 300° horizontally and 180° vertically for maximum exposure
- Flood, Spot and both Flood-Spot settings provide a variety of lighting options up to 2,500 lumens
- Second light in mounting handle illuminates the inside of the utility bucket to find tools fast
- Ergonomic design with one handed operation
- Sturdy build to work standalone
- IP56 rated
- Powered by DeWALT® 20V lithium-ion batteries; fits up to 8 Ah batteries (sold separately or with Cat. No. BAT20UBL1)
- 3-year limited warranty
- Kit ([Cat. No. BAT20UBL1](#)) includes two 4 Ah batteries and a charger

“The Cordless Utility Bucket LED Light is designed to provide a versatile lighting solution for trade professionals at an affordable price,” says Pierre Perez, Senior Manager of Product Development at Klein Tools. “This light gives users multiple lighting options for illuminating both the inside and outside of utility buckets, and while it was originally designed for the utility bucket, it is a versatile, general purpose light for any worksite. Available as a stand alone tool or as a kit with two batteries and a charger, this light is durable and easy to operate, making it a great option with a multitude of applications.”
