Klein Tools® Launches Quick and Easy Distance Measuring Solution

Apr. 14, 2022 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Compact Laser Distance Measure, allowing professionals to accurately take a single measurement or continuous measurements up to 100' (30.5 m) at the push of a button.

Compact Laser Distance Measure (Cat. No. 93LDM100C)

- Measures distances from 2" (5.1 cm) up to 100' (30.5 m)
- Best-in-class accuracy:
 - ± 1/16-Inches (0.16 cm) accuracy for the first 30' (10m)
 - ± 1/8-Inches (0.32 cm) accuracy up to 100' (30.5 m)
- Lightweight and compact design with pocket clip maximizes portability
- Records single or continuous measurements with the click of a button
- Quickly compare the latest measurement with the last two measured distances
- Class 2 laser automatically shuts off after 30 seconds to save battery
- Audio alerts when measurement is taken and can be disabled
- Measurement reference point can toggle between the top or bottom of the device
- Designed with a lanyard anchor to attach the unit to a tool bag or tool belt (lanyard not included)

“When working on jobsites, attempting to take quick and precise measurements in large areas can be a challenge,” says Brendan Rice, associate product manager at Klein Tools. “Klein’s new Compact Laser Distance Measure can provide accurate measurements up to 100 feet with just the push of a button, making measuring by yourself on a jobsite easier than ever. Additionally, this tool features a compact design with a clip and fits in a safety vest or shirt pocket, making it ideal to transport wherever measurements are needed.”
