Klein Tools® Launches Backpack That Easily Converts to Rolling Tool Bag

Nov. 30, 2022 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces the Tradesman Pro™ Rolling Tool Backpack, designed to easily convert from a backpack to a rolling tool bag when carrying heavy loads.

Rolling Tool Backpack (Cat. No. 55604)

- Telescoping handle easily converts backpack to a rolling tool bag
- Quickly stow shoulder straps behind back padding
- Handle wraps along the sides of the bag to provide extra support and stability when maneuvering around corners
- Constructed with durable water resistant 1680d ballistic weave material
- Illuminate the interior of the tool bag or surrounding work area by attaching a headlamp to the integrated headlamp bracket (Headlamps sold separately, Cat. Nos. [56062](#), [56049](#))
- 3" heavy-duty wheels can truck through unpaved paths
- 28 pockets for maximum tool and gear storage and includes a spacious interior for large hand tools
- Fully molded bottom protects from the elements
- Extra padding on the back extends over the hard bottom for carrying comfort

“Storing and transporting tools around jobsites can be a hassle, especially with heavy loads,” says Scott Rabe, senior product manager at Klein Tools. “The new Rolling Tool Backpack easily converts from a backpack to a rolling tool bag by simply stowing the straps and lifting the handle, meaning professionals can utilize the tool carrying option that works best for their needs. With a durable construction and twenty-eight pockets, this backpack is ideal for standing up to jobsite conditions and allowing you to bring along every tool needed to get the job done.”
