## Klein Tools® Expands Line of Jobsite Hearing Protection Products with Hard Hat Earmuffs

**Dec. 20, 2022 (Lincolnshire, Ill.)** – Klein Tools ([www.kleintools.com](http://www.kleintools.com)), for professionals since 1857, introduces new Hard Hat Earmuffs, the latest addition to Klein’s growing assortment of jobsite safety accessories, expanding the lineup of hearing protection products, one of the most pivotal categories of PPE on the jobsite.

### **Hard Hat Earmuffs (Cat. Nos. 60502 & 60532)**

- Noise Reduction Rating (NRR) 26\* decibels
- Soft, foam cushions offer effective acoustic seal
- Spacious interior for ear comfort and all-day wear
- Adjustable wire arms for custom fit
- Connectors designed for easy installation to Hard Hats and ability to work with other Klein hard hat accessories
- Available in two different models (for [Full Brim Hard Hats](#) or [Cap Style & Safety Helmets](#))
- Connector pivot points for in-use, standby and storage positions

“One of the biggest issues facing trade professionals on the jobsite is loud sounds and overexposure to noisy environments,” says Chandler Duchaine, product manager at Klein Tools. “Klein Tools’ new Hard Hat Earmuffs have an NRR of 26 decibels, meaning they offer the necessary hearing protection to help reduce your exposure to hazardous noise and other loud sounds. The Earmuffs are adjustable, spacious, and are designed to easily attach to whichever Klein hard hat model you have without interfering with other accessories.”
