Klein® Tools' New Tool Bags Stay Open for Convenience While On the Job

Oct. 10, 2017 (Lincolnshire, Ill.) – Klein Tools (www.kleintools.com), for professionals since 1857, introduces two new products to help increase organization. The Tradesman Pro™ Wide-Open Tool Bag is a large, durable bag that not only is wide at the top, but also stays open for easy, unobstructed tool access. Smaller, but still tough, are the Stand-Up Zipper Bags, which remain standing while open to help find small pieces and parts.

Tradesman Pro™ Wide-Open Tool Bag (Cat. No. 55469)

- Wide, stay-open top for easy access
- High-quality, durable 1690 ballistic weave construction
- 42 variously sized pockets inside and out:
 - Exterior front and back pockets for tools or small parts
 - Mesh side pockets for tools and equipment
 - 33 variously sized interior pockets for tools, parts and gear
 - Large interior zipper pocket
- Orange interior helps make finding tools easier
- Fully molded bottom protects from the elements
- Features handles and a shoulder strap with extra padding for comfort while carrying

Stand-Up Zipper Bags (Cat. No. 55470)

- Reinforced bottom of 2520D ballistic material prevents tools and parts from poking through
- Stand-up bottom makes finding items easier
- Colored interior helps tools and parts stand out
- Different bag sizes and colors help with organization
- Made of tough 1680d ballistic material
- Connect bags with a carabiner (not for human support)
- Two-pack includes: 6-1/2 inch tall (165 mm) orange bag and 7-1/2 inch tall (191 mm) gray bag

“We know professionals’ tool bags can get disorganized, making it difficult to find the right tool inside a dark bag – especially when the bag’s opening is too small or collapses while digging for tools,” says Linda Rolfe, senior product manager at Klein Tools. “Both the Tradesman Pro Wide-Open Tool Bag and the Stand-Up Zipper Bags are built to stay open as tradespeople search for the tool or part they need. From carrying drills and Klein wire strippers to storing small bits and pieces, these bags help tradespeople keep the right tools handy for any job.”
